

Future Forum / Events Information

The Assistant Secretary of the Army for Installations and Environment (ASAIE) has a requirement to establish long-term business relationships for the purpose of improving military family housing communities at Army installations. The Army's Residential Communities Initiative (RCI) conducts and participates in numerous forums and information on these forums is listed below.

The ASAIE, pending Congressional notification and the RCI program schedule, will conduct housing privatization industry forums for future projects. The Army conducts forums to provide information to industry representatives regarding upcoming RCI projects at specified installations.

Please note these projects and dates are subject to change at anytime.
